Cybersecurity: Cybersecurity Fundamentals, Ethical Hacking Concepts, Termux, Metasploit, Security Tool Exploration

Digital & AI: Digital Marketing, Meta Ads, AI Tools, AI-assisted Productivity, Digital Content & Campaign Management

Other Skills: Database Fundamentals, Software Project Development, Git & GitHub, Management, Leadership, Problem Solving

KNOWLEDGE AREAS

Self-assessed familiarity across key focus areas:

Programming: 80%

Web Development: 70%

Cybersecurity: 50%

Digital & AI: 90%

SELECTED PROJECTS

Urban Innovate

Technologies: HTML, CSS, JavaScript

A web-based project focused on identifying urban-area challenges and presenting innovative solutions. Includes interactive sections communicating local issues, solutions, community activities, and user feedback.

PROVENOM

Technologies: Python, Termux, Metasploit | *GitHub:* github.com/Prohackers535/PROVENOM

A cybersecurity automation and security-tool exploration project, developed to explore automated security-tool installation and mobile/Termux-based security workflows.

Student Grade Management System

Technologies: Java, OOP, Java Collections | *GitHub:* github.com/abdufhasith37/IT1214-Student-Grade-System

A console-based Java application designed to digitize student academic record management, using object-oriented programming principles to manage records, search by unique identifiers, and calculate academic statistics.

Warehouse Inventory Management System

Technologies: Java, OOP, Java Collections Framework | *GitHub:* github.com/abdufhasith37/IT1214-Warehouse-Inventory-System

A console-based inventory management application for warehouse stock, supporting adding, removing, updating, searching, and viewing inventory items through a menu-driven interface.

E-Commerce Website

Technologies: HTML, CSS, JavaScript / Web Technologies

A web-based e-commerce project focused on presenting products through an interactive online shopping interface.

Digital Marketing & Meta Ads

Area: Digital Marketing

Hands-on experience working with digital marketing activities and Meta advertising campaigns, including campaign planning, audience targeting, promotional content, and lead-generation concepts.

LEADERSHIP & MANAGEMENT

- Founder & CEO of GCSST
- Technology project coordination
- Student/community training coordination
- Digital marketing management
- Team and project organization
- Technology education initiatives
- Leadership and communication

LANGUAGES

Tamil — Native English — Intermediate

AREAS OF INTEREST

Cybersecurity • Software Development • Web Development • Artificial Intelligence • Digital Marketing • Technology Education • Automation • Emerging Technologies
